eBooks

To access our library E-Book Collection you can search our online catalog or you can search the e-book library itself.

From the Black Hills State University home page at www.bhsu.edu, click the drop down feature under the quick links and choose library, then click go…

You will then be directed to the library homepage

On the right side of the home page you will see an icon: eBooks

Click on that icon.

You will then be directed to the Net Library homepage, to do a basic search click on the drop down menu under the words Basic Search.

There you will see five search choices: full text, keyword, title, author, and subject.

Let’s try a keyword search using the search terms South Dakota, type South Dakota in the search box.

You will see we get 15 results, to view the results simply scroll down through the results list.

When you find something you want to view you can either click on the book icon or the link below it “view this book”

For example let’s look at the book titled “Hike South Dakota’s Black Hills Country”

I am going to click on the book icon to access the book

You will now see the table of contents on the left side of the screen.

The bigger portion of the screen is where you will actually read the book

To access the book you can click on any of the links in the table of contents, for example, I am going to click on trial etiquette. You can see that we jumped to the trail etiquette portion of the book.

You can also jump to a specific page in the book by entering a page number in the page box at the top of the screen. For example I am going to enter 45 in the page box and we will jump to page 45.

You can also scroll through the book by clicking the next button.

Note you can only print from those books that are displayed using the adobe acrobat reader.
